

POWERSCAPE

Fiberock® Aqua-Tough

“Powerscape moves forward to World Recognition and International Branding”

Many Architects, Developers, Builders and Plasterers in the Australian Market have successfully specified and installed Powerscape Products. Now the same group of products branded under the Powerscape name will be branded as **Powerscape Fiberock®**.

Powerscape Fiberock is still the same product, with the same features of High Impact, High Acoustic, Fire Ratings, Excellent Wet Area properties, and Green Star rated - just a minor name change due to Global Expansion and in line with USG International branding.

Over the past year and a half most customers will have noticed the new branding and packaging of Powerscape Fiberock, as either Fiberock Aqua-Tough or Fiberock Aqua-Tough VHI (the VHI, Very High Impact, has fibreglass mesh embedded through the sheet).

In the coming months, new light green coloured Powerscape Fiberock brochures and catalogues will reflect the new name change as well as a completely updated website at www.powerscape.com.au

Powerscape Fiberock - new name, same great product, and of course, the same great USG service.

To help with the transition, we’ve created a quick, cross-reference table so you can easily identify older Powerscape brand names and the new simpler International options.

USG Powerscape Brand Names		
	New	Previous
13mm	Fiberock Aqua-Tough	Health Distinction Confidence Utility
13mm	Fiberock Aqua-Tough VHI	Confidence Ultra-Mesh Confidence Aqua Tough Health Ultra-Mesh
16mm	Fiberock Aqua-Tough	Health Confidence Utility Assurance
10mm	Fiberock Aqua-Tough	Health Peace Timber Touchstone
